Customize your light fixture

Le Lampiste is the only light fixture manufacturer in
North America that manufactures

*from raw material to
finish product,*

allowing complete control in custom design and
specification of your light fixture.

The following are typical materials and finishes used
in the customization of a light fixture.

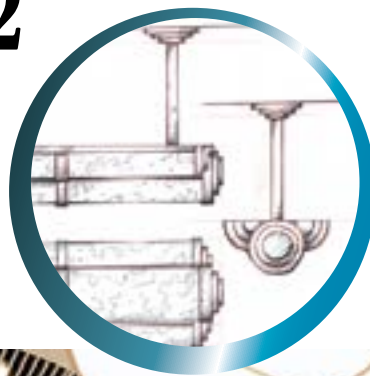

*From a brilliant idea
to a shine light.*

OUR DESIGN PROCESS

1 FROM AN IDEA

2 WE DESIGN AND PRODUCE
TECHNICAL DRAWINGS

3 TO MAKE YOUR
FIXTURE COME TRUE

Montreal Casino

We were working in association with Menkès Shooner Dagenais Letourneux Provencher Roy Associés, Architectes and Pomerleau Inc on the renovation of the 5th & 6th floors (Pavillon de la France). We manufactured all the custom fixtures on this project.

*Specially created
for your project.*

Pizzicato's Restaurant

*Perfect integration
to the style.*

We had the opportunity to jointly work with the architectural firm JGA Architectural Design and the Yo Bulb company in order to supply custom luminaries for the Pizzicato's Restaurant in Moorestown, NJ. The luminaries give these restaurants a contemporary and modern touch while keeping a classic spirit.

The luminaries over the tables give the restaurant its originality.

The exterior fixtures were built with solid brass and opalescent (Tiffany) glass which perfectly integrate the restaurant facade giving it an inviting and great character.

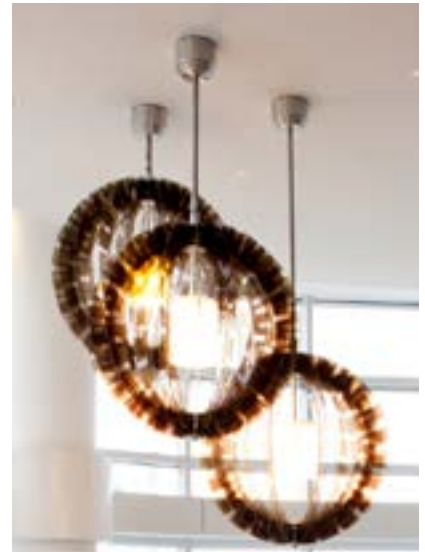

Established Since 1973

Le Lampiste de Beloeil Inc. has been manufacturing custom luminaries for over 40 years. We help you realize your projects by responding to your needs and technical specifications. All our production is done in Québec and over 90% is done in our factory. Thus permitting to control all facets of our production. Our quality control is next to none. We only use top quality materials in order produce lighting fixtures of your dreams.

Our factory disposes among machining centers and painting facilities has an impressive metal spinning center which includes 3500 molds that cover an era from 1897 to today. Thus allowing us to restore fixture from the early days of electrification. New molds are also fabricated for all custom fixtures as per requirement.

Our artisans are all masters of their trade, they are able to produce the finest patinas on noble materials, faux finishes of alabaster (the best of the industry) on acrylics that we can form up to 8 feet in diameter.

Our services:

Specialized into the manufacturing of custom fixtures and luminaries, we have the know-how to built the lighting of your dreams.

Le Lampiste also provides restoration services in accordance with UL, cUL and CSA present rules, to recover the glory of truly pieces of art that are unique handcrafted.

We have a line product of sign lighting on our website www.pickalight.ca, you can choose on-line your specifications as color, style and size.

The Chatwal Hotel. New York

Space & Personality

We had the privilege and the pride one of our last great realizations for the Chatwal Hotel situated in Manhattan on Fifth Avenue in New York. Because of its knowhow, Le Lampiste contributed to the renaissance of that star is the building created by Stanford White, thus permitting the combination of the Art Deco spirit of the 30's and the needs of modern times and this, using the latest eco-energetic lighting technologies such as DEL-DMX.

In collaboration with the Master Architect Thierry Despont gave birth unique and luxurious luminaries where the smallest details were not neglected. The result is a work of art where our luminaries are married with nobleness and elegance of the restoration of this magnificent 5 stars hotel thus becoming a glamour site and trendy of New York.
